By Dana Sachs

In her captivating memoir, *Bluejacket Sailor Life*, Dana Sachs takes readers on an unforgettable journey through her time as a sailor in the United States Navy. From her initial training to her deployment to the Persian Gulf, Sachs paints a vivid and honest portrait of life at sea.

Sachs's writing is both lyrical and unflinching, as she describes the challenges and rewards of life in the Navy. She writes about the camaraderie of her shipmates, the exhilaration of sailing under full sail, and the dangers of being deployed to a war zone.

Bluejacket Sailor Life is more than just a memoir of one woman's experience in the Navy. It is also a meditation on the nature of service, sacrifice, and the human spirit. Sachs writes with a clear-eyed understanding of the complexities of military life, and her insights will resonate with anyone who has ever served in the armed forces.

Here is an excerpt from the book:

“ I was standing watch on the bridge of the USS John C. Stennis, an aircraft carrier on its way to the Persian Gulf. It was a clear night, and the stars were out in full force. I could see the Milky Way stretching across the sky like a celestial river.

I was alone on the bridge, except for the helmsman, who was standing behind me. I was looking out at the stars, and I was thinking about how far I had come.

Just a few years earlier, I was a college student with no plans to join the military. But then I saw a recruiting poster for the Navy, and something inside me clicked. I had always been fascinated by the sea, and I thought that the Navy would be a great way to see the world and serve my country.

I went to Officer Candidate School, and after I graduated, I was assigned to the Stennis. I was excited to be on my first deployment, but I was also nervous. I had heard stories about the dangers of being deployed to a war zone, and I wondered if I was up to the task.

But I was determined to prove myself. I worked hard, and I learned everything I could about my job. I also made friends with the other sailors on my ship, and they helped me to feel more at home.

After a few months, the Stennis arrived in the Persian Gulf. The first time I saw the Iraqi coast, I felt a surge of excitement. I was finally here, and I was ready to do my part.

The Stennis spent the next few months patrolling the Persian Gulf. I saw firsthand the devastation that war can cause. I saw ships on fire, and I saw people fleeing their homes. But I also saw the courage and compassion of the sailors on my ship.

We provided food and water to refugees, and we helped to evacuate civilians from war zones. I was proud to be a part of such a noble mission.

After six months, the Stennis returned to the United States. I was glad to be home, but I was also sad to leave my shipmates. I had made lifelong friends, and I had learned so much about myself.

My time in the Navy was one of the most challenging and rewarding experiences of my life. I learned the value of teamwork, sacrifice, and service. I also learned that I am capable of more than I ever thought possible.

I am grateful for the opportunity to have served my country, and I am proud to be a Bluejacket sailor. ”

Bluejacket Sailor Life is a must-read for anyone interested in the Navy, the military, or the human experience. Sachs's writing is both beautiful and powerful, and her story will stay with you long after you finish reading it.
