Why Choose Synthetic Materials?

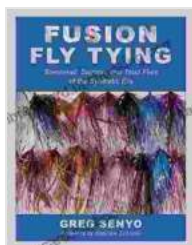

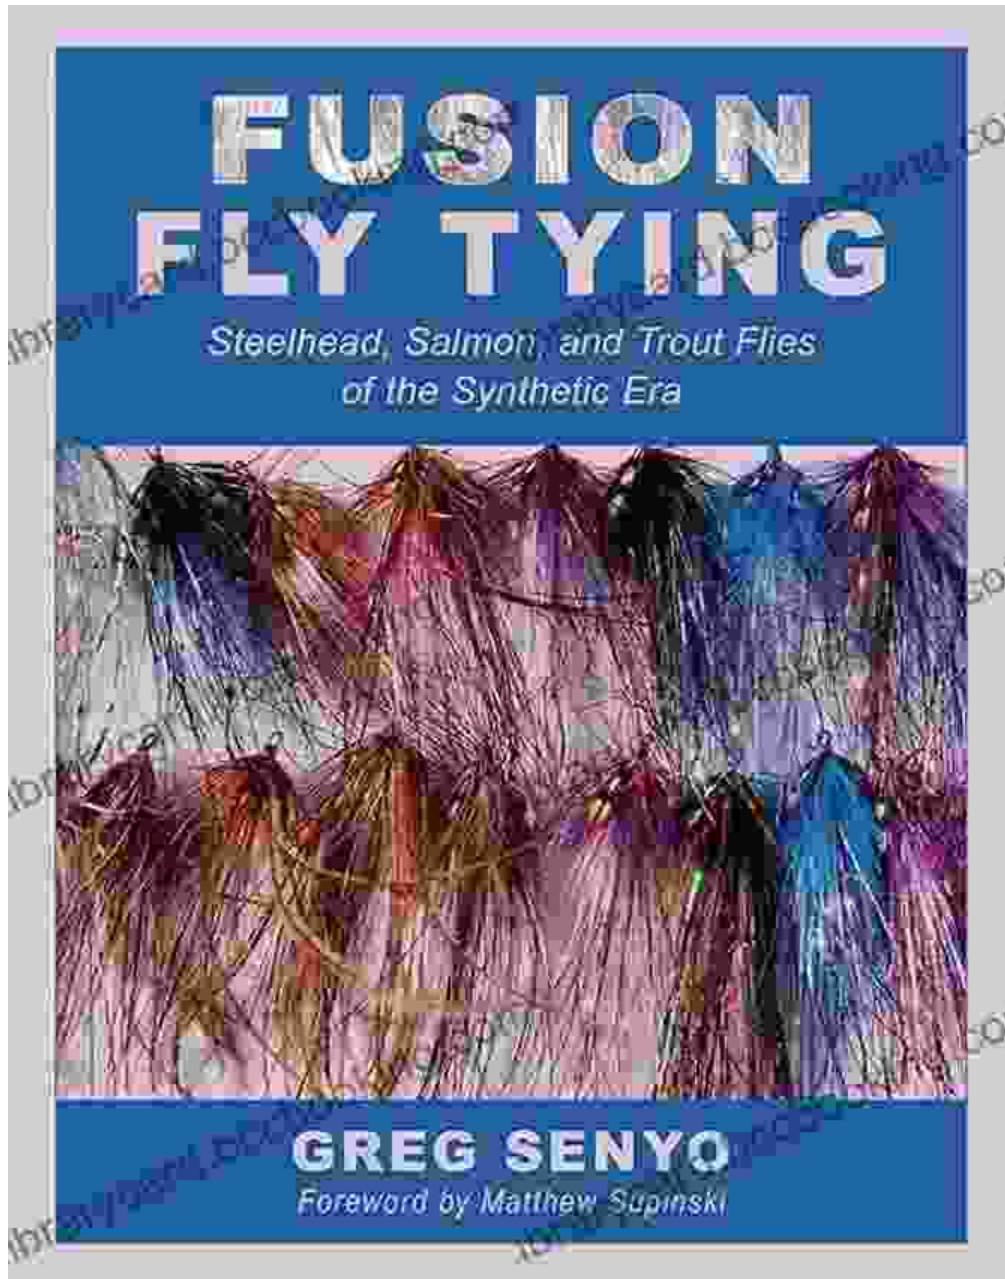

There are many reasons to choose synthetic materials for fly tying.

Synthetic materials are:

- **Durable:** Synthetic materials are more durable than natural materials, so they can withstand the rigors of fishing. They are also less likely to break or fray.
- **Consistent:** Synthetic materials are consistent in quality, so you can be sure that your flies will be tied the same way every time. This is important for producing flies that are effective and reliable.
- **Versatile:** Synthetic materials can be used to imitate a wide variety of natural materials. This makes them a great choice for tying flies that are effective in a variety of situations.

If you're looking for a book that will help you tie better flies and catch more fish, then *Steelhead Salmon And Trout Flies Of The Synthetic Era* is the perfect resource for you.
