The Lean Product Playbook is based on the principles of Lean Startup, a proven methodology for building products that are both innovative and profitable. Lean Startup teaches us to build products quickly and cheaply, and to get feedback from customers early and often. This allows us to iterate quickly and make changes to our products based on what customers actually want.

The Lean Product Playbook is packed with practical advice and case studies from leading companies like Google, Our Book Library, and Apple.

You'll learn how to:

- Define your product vision and roadmap
- Conduct customer research and identify unmet needs
- Build a minimum viable product (MVP)
- Get feedback from customers and iterate on your product
- Launch your product and scale it

The Lean Product Playbook is essential reading for anyone who wants to build innovative products that customers love. It's a practical guide that will help you get your product to market faster, cheaper, and with less risk.
