

# Why Garden of the Intellect LLC Selected Nastel Autopilot: A Case Study in Sales Automation Success

In recent years, Garden of the Intellect LLC has experienced significant growth. The company has expanded its product line, increased its marketing efforts, and hired additional staff. However, as the company grew, it became increasingly difficult to manage the sales process manually.

Garden of the Intellect LLC was facing a number of challenges, including:

- **Inefficient lead generation:** The company was generating a large number of leads, but it was difficult to qualify and follow up on all of them.
- **Limited sales capacity:** The company had a small sales team, and it was difficult to keep up with the demand for sales appointments.
- **Lack of visibility into the sales process:** The company did not have a good way to track the progress of sales leads, and it was difficult to identify bottlenecks and areas for improvement.

To address these challenges, Garden of the Intellect LLC decided to implement a sales automation solution. The company evaluated a number of different solutions, and ultimately selected Nastel Autopilot.
